

Málaga is a touristic destination with a great accommodation offer, where you can find hotels ranging from economic hostels to five-star ones. The congress coincides with the end of the touristic season, yet, we recommend you make your booking as soon as possible to ensure your lodging at reasonable prices. Please, contact the official travel agency:

1) If you have a fixed allowance for lodging (as many of those from public institutions have) you can inform the travel agency, who will make you a proposal as close as possible to your budget.

2) Otherwise, you can go ahead and ask for a reservation in one of the hotels listed below.

The official travel agency has arranged a room blockage in some hotels at the fixed prices shown below. There are a number of additional hotels, shown further below, where the travel agency can also book you a room, but for which no fixed price is set. If you are interested in any of the latter, inform the agency, who will send you back a quote. All matters regarding accommodation should be dealt directly with the travel agency, including payment.
